

Getting to know us...

We are a family business that began as a hobby over 34 years ago. Today two generations are working together handling the thriving business which has evolved and grown mainly through "word of mouth".

Although we design and decorate in a variety of styles, we are best known for cakes decorated with our delicate handmade icing flowers made petal by petal and color coordinated to floral arrangements. Designs may be created personally for you from a picture.

In past years we have been privileged to exhibit a five foot tall fair yland wedding cake in The Philadelphia Flower Show totally decorated with a potpourri of our sugar flowers... also we were truly honored to be recognized by the Philadelphia Museum of Art as confectionary artists and invited to design a cake for their 20th Annual Art/Craft Show!

SEPT 02 - We were featured in a two page pictorial in the World's Leading Sugarcraft Magazine Cake published in England - a real surprise and thrill!

OCT 02 - John was recognized for his incredible lifelike hand-fashioned meringue flowers and awarded 1st place in the Wedding Cake Competition at the National Retail Baker's Association in competition with 84 professionally decorated cakes - many local: Way to Go John !

Through the years we have received numerous awards for our creative designs and customized art work and are constantly creating new designs for our many brides.
